

BRUTE®

THE TOUGHEST JUST GOT MORE PRODUCTIVE

SINCE 1968, BRUTE CONTAINERS have been trusted by professionals for their iconic durability and reliability. With every lift, drag and drop, they've outlasted – and outperformed every competitor in their industry thanks to their proprietary design and the highest quality materials. That's why our containers are chosen first to get the job done.

But we're raising the bar even higher with the new BRUTE. Innovative venting channels make removing liners up to 50% easier. Integrated cinches secure can liners, meaning knot-free liner changes. Contoured base handles improve grip, reduce strain and improve efficiency when emptying containers.

With these brand new innovations, we're proud to stamp BRUTE on every container guaranteeing its legendary performance. When you see our stamp, it means that your toughest job just got a whole lot easier.

50% EASIER TO LIFT LINERS

THE BRUTE IS DESIGNED WITH FOUR BUILT-IN VENTING CHANNELS that create airflow throughout the container. This air circulation eliminates the vacuum effect that occurs when lifting out liners in traditional containers. By reducing the pull force required to lift out liners by up to 50%, the BRUTE improves productivity and reduces the risk of injury.
